

# Purpose Vision Mission Values

# PURPOSE

- **Turning brass into reliable solutions** that support industry, drive progress, and enhance people's well-being.

# VISION

- Empowering efficiency and sustainability with tailored components.

# MISSION

- Supporting our customers delivering high-quality brass components with reliability, expertise and commitment.

# VALUES

- **People / our professionalism** is based on the value of our people, an irreplaceable and precious patrimony of efficiency. For Gnutti Group putting people at the center means taking care of their **health and safety**, enhancing **diversity, inclusion and condemning all forms of discrimination**.
- **Ingenuity / our “work culture”**, handed down since 1951, distinguish the Group. **The high technical and commercial level** developed with ingenuity and passion over many years of experience stands for reliability and allows us to offer **targeted solutions** useful to meet any request of yesterday, today and tomorrow.
- **Excellence /** Our systematic monitoring extends from suppliers to the entire production process, ensuring **quality and precision** for our products through constant checks, targeted testing and continuous improvement.
- **Sustainability /** Acting with integrity, honesty and respect is prerequisite for a sustainable development which must pay attention to the environment, the territory, social aspects and local communities in which the Group operates. **Environmental, social and governance (ESG) sustainability is the hallmark of Gnutti Group.**
